

Coaches Certification Training

In order to continue up grading coach's knowledge and abilities, the department is encouraging coaches to complete certification requirements through the National Youth Sports Coaches Association. You can view the material and participate in a clinic by going to the web site:

www.nays.org/nyscaonlineclinics

The Department policy requires coaches used at the All-Star level be NYSCA certified and will soon required all youth sport head coaches be certified. The cost is \$25.00 per year.

The department is also providing CPR/Defibrillator Certification. The CPR/Defibrillator Certification will not be mandatory, however those willing to complete the certification should be better equipped to address situations which may occur while working with Youth Sports. The fall training session is scheduled on Saturday, August 18, 2007 at the Bremen Senior Center from 9:00a.m.1:00p.m. The cost is \$45.00 for a two (2) year certification and the class limit is 20.
